

Declaration by the Research Scholar Originality of Research Work

I declare that thesis entitled "*Designing data centre for providing services to small industrial area*" is my own work conducted under the supervision of **Dr. Parag Shukla** at Department of **Computer Science**, Faculty of **Science**, Atmiya University, Rajkot, Gujarat, India and approved by the Director of Research.

I further declare that to the best of my knowledge the thesis does not contain any part of any work which has been submitted for award of any degree either in this University or any other University without proper citation.

Rayjada Hardiksinh Hardevsinh

Certificate of Supervisor

This is to certify that work entitled "*Designing data centre for providing services to small industrial area*" is a piece of research work done by **Rayjada Hardiksinh Hardevsinh** under my supervision for the degree of Doctor of Philosophy in Department of **Computer Science**, Faculty of **Science**, Atmiya University, Rajkot, Gujarat, India

To the best of my knowledge and belief the research work and thesis

- I. Embodies the work of candidate himself / herself,
- II. Has duly been completed,
- III. Fulfils the requirement of ordinance related to Ph.D. degree of the University &
- IV. Is up to the standard both in respect of content and language for being referred to the examiner.

Dr. Parag Shukla

Acknowledgment

Pursuing a Ph.D. is like climbing a high peak, step by step, accompanied by bitterness, hardships, encouragement, and trust, and with so many people's kind help. When I found myself at the top enjoying the beautiful scenery, I realized that it was, in fact, teamwork that got me there. Though it will not be enough to express my gratitude in words to all those people who helped me, I would still like to give my many, many thanks to all these people.

At this moment of accomplishment, first of all, I pay homage to my guide, Dr. Parag Shukla, Dr. Vaishali Parsania, who accepted me as his/her Ph.D. student. There are no proper words to convey my deep gratitude and respect for him/her. This work would not have been possible without his/her guidance, support, and encouragement. Under his/her guidance I successfully overcame many difficulties and learned a lot. I express my gratitude to Dr. Ashish Kothari, Dr. Hetal Thakker, Dr. Sheetal Tank, Dr. Ashwin Dobariya, Dr. Vivek Vyas, Dr. Hiral Manani, Dr. Priyanka Trivedi, Dr. Ranjan Khunt, Dr. Piyush Goswami, Naresh Pandya (GIPL), Rahul Saxena and Ajay (Sheela Foam), Nirav Shanghavi (Navkar Enterprise), Director, Centre of Excellence (Metoda GIDC), GLIA Industrial, helping me during my research work.

I will be failing in my duties if, I do not acknowledge the support, cooperation, and suggestions of my research colleagues namely, Dr. Jalpa Rank, Dr. Savan Katba, Akruiti Naik, Nirav Desai, Ankitsir, and Vaibhav Shah for their valuable aids and appreciation. I feel a great sense of happiness by dedicating this scientific work to my parents, my wife Rupalba and my son Shauryadeepsinh and my family members who have always inspired me, prayed for me, always there cheering me up, and raised me during all the time, deserve my deepest indebtedness.

Last but not the least, I would like to acknowledge all those whose names are not mentioned here but helped me directly or indirectly during the tenure of my Ph.D.

Rayjada Hardiksinh Hardevsinh
