Rashtriya
e-Pustakalaya

Rashtriya e-Pustakalaya

Rashtriya e-Pustakalaya, also known as the **National e-Library**, is a digital initiative launched by the **Ministry of Education, Government of India**, through the **Department of School Education and Literacy** in collaboration with the **National Book Trust (NBT)**. It aims to promote reading habits among children and young adults by providing free access to a wide range of **non-academic books** in multiple Indian languages.

The platform offers **fiction, biographies, poetry, self-help, adventure, comics, and classic literature** suitable for readers aged **3 to 18 years**. It supports **multilingual learning**, aligning with the vision of the **National Education Policy (NEP) 2020** to foster creativity and cultural awareness through reading.

Currently, Rashtriya e-Pustakalaya hosts over **2,000 curated titles** across **23 Indian languages**, contributed by more than **40 publishers**. The collection continues to expand toward a target of **10,000+ books**. Users can access the library through a **web portal or mobile app** (available on Android and iOS) featuring offline reading, bookmarking, and text-to-speech tools.

By making diverse literature accessible anytime and anywhere, Rashtriya e-Pustakalaya bridges the digital divide, nurtures lifelong readers, and strengthens India's reading culture in the digital era.

Research, Innovation

Dr. Mital Nirajbhai Manvar

PUBLICATIONS, CITATIONS / H-INDEX, GOOGLE SCHOLAR

Dr. Mital Nirajbhai Manvar Associate Professor, School of Pharmaceutical Sciences, Atmiya University

Dr. Mital N. Manvar holds B.Pharm, M.Pharm, and Ph.D. degrees in Pharmaceutical Sciences, bringing over **17 years of academic** and **3 years of industrial experience** to her profession. Her core areas of expertise include **Pharmacognosy, Phytochemistry, Pharmacology, and Herbal Drug Development**. She has made notable research contributions with **15 publications** in reputed national and international journals, authored the book “**Interactions and Side Effects of Herbal Plants: Revealing Ayurveda**,” and contributed **five book chapters** to scholarly volumes. Dr. Manvar has presented **13 research papers** at various national and international conferences and successfully completed **nine funded projects** focusing on herbal product development. Her research primarily explores the **therapeutic potential of medicinal plants**, including their **anti-inflammatory, antioxidant, antimicrobial, anti-diabetic, and anti-coagulant properties**.

She has received several accolades, including **First Rank in Oral Presentation** at the GUJCOST & DST-sponsored International e-Conference (2021). Dr. Manvar also serves as an **editorial board member, reviewer, and evaluator** for various academic and government initiatives under the **Ministry of Education**. An active member of **IQAC, Board of Studies, and MoU Committees** at Atmiya University, she also participates in professional organizations such as the **Association of Pharmaceutical Teachers of India (APTI)**, contributing significantly to education and research advancement.

Author of the Month

Jay vasavada

Jay Vasavada (born 6 October 1973) is a well-known **Gujarati writer, columnist, and public speaker** from Bhavnagar, Gujarat. He began his writing career in 1996 with the newspaper **Gujarat Samachar**, where his popular columns like **Anavrutta** and **Spectrometre** gained wide readership.

Vasavada's works cover diverse subjects such as culture, cinema, philosophy, science, education, and youth motivation. He has authored several acclaimed books including **Jay Ho!**, **Mummy Pappa**, **Preet Kiye Sukh Hoy**, and **Yuva Hava**.

Apart from writing, he is an engaging **orator and media personality**, known for hosting talk shows like **Samvaad** on ETV Gujarati. His simple yet thoughtful style and motivational approach have made him a favorite among Gujarati readers and youth.

Save Earth

- **Reduce, reuse, and recycle** to minimize waste and pollution.
- **Conserve water and energy** by using resources wisely and switching off unused appliances.
- **Plant more trees** as they absorb carbon dioxide and provide oxygen.
- **Limit use of plastic** and support sustainable alternatives.
- **Use public transport, carpool, bike, or walk** to reduce carbon emissions.

Library Activity

New Journey Begins!

: Special guest visit :

Honorable Dr. M. K. Ranjitsinh Ji

Library and Learning Centre, Atmiya University, had the pleasure of organizing an engaging orientation session for our 1st-year Pharmacy students.

It was wonderful to see such energy, curiosity, and enthusiasm from our new learners as they explored library resources, digital platforms, and learning support services.

Library Team wants you to know...

Library Team wants you to know that when you are trying to read an article and hit the paywall, you are not alone. Everyday people around the world such as doctors, scientists, students and patients are denied access to the research they need. Interestingly, it is this obstacle that led David Carroll and Joseph McArthur, fondly called “The Button Boys”, to create the **Open Access Button**. Launched on 18 November 2013, the Open Access Button is a plugin and a bookmarklet that requires no sign-in, and that suggests an open access version of an academic article behind paywall. As a source, all of the aggregated repositories in the world, hybrid articles, open access journals, and those on authors personal pages are used to locate the article. A few examples of such sources are **CORE**, **BASE**, **Europe PMC** etc. One unique feature of Open Access Button is also that when the open access version of any article is not available, the plugin allows directly the user to get in touch with the author and request for a copy of the article.

**Open
Access
Button**
