

WELCOME TO OUR

Monthly Newsletter

DrillBit

DrillBit has been selected for empanelment with AICTE NEAT 3.0 and by INFLIBNET Centre for all the Indian Universities under the aegis of Ministry of Education, Govt. of India.

DrillBit supports plagiarism check in regional languages. Kannada, Hindi, Urdu, Telugu, Tamil, Malayalam, Punjabi, Bengali, Marathi, Assamese, Gujarati, Sanskrit, Sindhi, Santhali, Manipuri, Oriya, Punjabi, Bengali

Does DrillBit detect AI-generated text?

Yes, there is a separate report for AI detection, and the report can be downloaded from the analysis page. It will generate an AI report for all submissions without requiring any settings.

Tips to Avoid Plagiarism:

- Paraphrase properly – Rewrite ideas in your own words.
- Use quotation marks for direct quotes.
- Cite all sources – Even when paraphrasing.
- Keep track of references while researching.
- Use plagiarism checkers before submitting work.

In this newsletter:

DrillBit supports plagiarism check, Research, Innovation, Faculty Publication, Coming up library events, Save Earth, Author of the Month, Library Activity, Understanding India's Copyright Law and more. Keep Reading!

Library events April 2025

1. World Book and Copyright Day
2. Literacy Program for Ph.D. Students
3. Book Exhibition : William Shakespeare Books
4. New arrivals General books

Research, Innovation

Dr. Chitra Bhattachaya

PUBLICATIONS, CITATIONS / H-INDEX, GOOGLE SCHOLAR

Dr. Chitra Bhattachaya is an Assistant Professor in the Department of Microbiology at Atmiya University, Rajkot, Gujarat. She holds a **Ph.D. in Microbiology**, an **M.Phil. in Bioscience**, and an **M.Sc. in Microbiology**. Her research interests include **Plant Growth-Promoting Rhizobacteria (PGPR)**, **environmental microbiology**, **bioprocess technology**, and **microbial applications in agriculture** and waste management.

Dr. Bhattachaya has contributed to **various research projects** and **publications**. Her work encompasses the development of biocontrol agents, exploration of **PGPR strains**, and the application of microbial technology for **sustainable agriculture**. She has also been involved in projects funded by organizations such as the **Department of Biotechnology (DBT)**, **BIRAC**, and the **Gujarat State Biotechnology Mission (GSBTM)**.

Author of the Month

William Shakespeare

William Shakespeare was born on April 23, 1564, in Stratford-upon-Avon, England. He was the third of eight children born to John Shakespeare, a glove maker, and Mary Arden. Little is known about his early education, but he likely attended the local grammar school.

He married Anne Hathaway in 1582 and had three children. By the early 1590s, Shakespeare had moved to London, where he gained fame as a playwright and actor. He was associated with the Globe Theatre and wrote famous tragedies (Hamlet, Macbeth), comedies (As You Like It, Twelfth Night), and histories (Henry IV, Richard III).

He retired to Stratford around 1613 and died on April 23, 1616. His legacy lives on through his timeless works, which continue to shape literature and theatre.

Save Earth

Earth is the only planet that supports life. It provides us with air to breathe, water to drink, and food to eat. But human activities like deforestation, pollution, overuse of natural resources, and climate change are harming our planet every day.

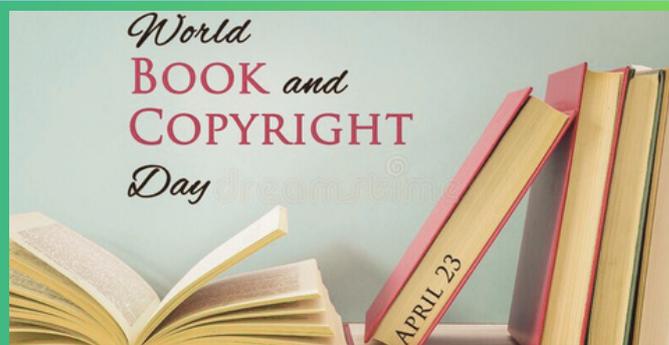

- Plant more trees 🌳
- Reduce, reuse, and recycle ♻️
- Conserve water and energy 💧⚡
- Avoid plastic and reduce pollution 🗑️
- Protect wildlife and natural habitats 🐾

Library Activity in April

World Book and Copyright Day

To mark **World Book and Copyright Day**, a book exhibition was organized by the Library on April 23, 2025. The display featured a wide range of books, including literature, biographies, and reference works. Special focus was given to authors like Shakespeare. Posters highlighting the importance of copyright and author rights were also showcased. The exhibition was well-received by students and staff, encouraging reading and respect for intellectual property.

Copyright Law

Understanding India's Copyright Law

India's copyright framework is governed by the Copyright Act, 1957, which has been amended multiple times, most notably in 2012

Key Definitions:

- **Copyright:** A legal right granting creators control over the use of their original works, including reproduction, distribution, and adaptation.
- **Work:** Includes literary, dramatic, musical, and artistic creations, as well as cinematograph films and sound recordings.
- **Author:** The individual who creates the work. In cases of employment, the employer may hold the copyright unless otherwise agreed.

Duration of Copyright:

- Literary, dramatic, musical, and artistic works: Lifetime of the author plus 60 years.
- Cinematograph films and sound recordings: 60 years from publication

Rights Conferred:

- Reproduction of the work.
- Public performance or communication.
- Adaptation and translation.

These rights ensure creators can control and benefit from their works.

Exceptions – Fair Dealing:

Certain uses are permitted without infringement, such as:

- Private or personal use, including research.
- Criticism or review.
- Reporting of current events.
