## SHODHganga

Shodhganga is a digital repository developed by INFLIBNET (Information and Library Network Centre), under the aegis of the University Grants Commission (UGC) in India. It provides open access to electronic theses and dissertations (ETDs) submitted by researchers from various Indian universities.

### Key Features

- **Digital Repository:** Serves as a platform for depositing and accessing theses/dissertations.
- **Supports academic transparency and knowledge sharing.**
- **Comprehensive Database:** Contains research across diverse disciplines.
- **Includes work from universities and research institutions nationwide.**
- **Open Access:** Ensures free and unrestricted access to research outputs.
- **Promotes visibility and usage of academic research.**
- **UGC Mandate:** Universities are required to deposit Ph.D. theses in Shodhganga to prevent duplication of research and ensure originality.
- **Integrated Tools:** Offers a plagiarism detection service through "Shodh Shuddhi" to uphold academic integrity.

## Library Services : Book Talk

Dear Patrons,

The Book Talk Service is an engaging initiative by our library to promote reading, foster discussions, and introduce patrons to a wide range of literary works. This service aims to connect readers with books that inspire, educate, and entertain.

Objectives:

- To cultivate a love for reading among the community.
- To encourage critical thinking and meaningful discussions around books.
- To introduce diverse genres and authors to readers.
- To enhance the library's role as a cultural and educational hub.

Stay updated with our upcoming events by visiting <https://library.atmiyauni.ac.in/>

**Join us for our next Book Talk session! Happy Reading!**

### Publish or Perish

**Publish or Perish (PoP)** is a widely used software application that helps researchers and academics analyze the impact of their publications through citation analysis. It provides metrics to evaluate individual researchers, journals, or institutions, aiding in academic decision-making.

#### Key Features:

**Citation Metrics:** Calculates h-index, g-index, i10-index, and more.

**Data Sources:** Pulls data from platforms like Google Scholar, Scopus, CrossRef, and PubMed.

**Free to Use:** Available for free, making it accessible to researchers globally.

**User-Friendly:** Simple interface to extract citation data.

It supports researchers in tracking their work's impact, preparing for promotions, or evaluating research trends. You can download it from its [official website](#).

### Author of the month: Chetan Bhagat

The Chetan Bhagat has a strong focus on making information and ideas accessible to a broad audience, particularly young Indians. As a writer and columnist, he uses simple, relatable language to discuss complex topics like education, career, relationships, and social issues. His books often incorporate real-world challenges faced by young people, such as navigating cultural expectations, pursuing ambitious goals, or dealing with systemic problems.

Beyond fiction, Bhagat writes opinion pieces for newspapers, addressing issues like reforms in education, economic growth, and youth empowerment. He believes in the power of information and storytelling to inspire change and connect with audiences.

### Connected Papers

<https://www.connectedpapers.com/>

Connected Papers is a visual tool designed to help researchers and academics explore the landscape of research papers related to a specific topic. By inputting a research paper or keyword, the tool generates a graph that shows papers connected through shared references and citations.
